Margarita Gaeta and Augustine Gaeta bring this diversity action on behalf of their minor son, A.G., against Perrigo Pharmaceuticals Company, PAR Pharmaceutical Inc, and BASF Corporation. Plaintiffs allege A.G. suffered liver failure as a result of his consumption of ibuprofen manufactured and distributed by Defendants.

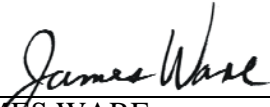

Plaintiffs and one or more Defendants have reached a settlement and desire to jointly move the Court to approve the settlement and to declare the settlement to be made in good faith. The settlement includes amounts which represent payment to the Plaintiffs for medical expenses incurred by or on behalf of the minor.

A portion of the minor's medical expenses were paid by third party public and private health beneficiary services and plans. Some or all of these third parties are entitled to be reimbursed from the proceeds of any settlement. The parties to the case have made an effort to contact all third parties; to notify them of the proposed settlement; to have the third-party file a claim for reimbursement from the settlement, and if necessary to perfect any lien which the third party might assert. The parties have experienced difficulties in having the third parties respond and request the assistance of the Court.

The Court finds that in order to protect the interests of the minor and the protect the integrity of any judgment of the Court approving the settlement and making disbursements, it is necessary in aid of its jurisdiction to order any claimant to assert its claim or to regard the claim as waived.

Accordingly, you are ordered to appear on **November 17, 2008 at 9 a.m.** and to show cause, if any, why the Court should not conduct a hearing at which any third party asserting a claim or lien must appear and prove the amount of the claim or lien; enter an order allowing all or a portion of any claim or lien; approving the settlement, and terminate any further claim by you against the settling parties for medical services or benefits provided to the minor up to and as of the date of the order.

Dated: September 30, 2008
